Languages:

Azerbaijani, Russian, English (B1)

Personal qualities:

Creativity, Attention to detail.

I am able to quickly learn new technologies and find unconventional solutions to problems.

Projects:

Client apps

- Laney v1 (<https://github.com/Elorucov/Laney-Legacy>) — A messenger for VK social network written for Windows 10 (UWP) using C# since 2018.
- Laney v2 (<https://github.com/Elorucov/Laney-Avalonia>) — A second version of Laney, developed for cross-platform desktop OS (.NET 9 & Avalonia UI). CI/CD used in this project. Since 2022.

Backend API

- MatrixBugtracker (<https://github.com/Elorucov/MatrixBugtracker>) — a bug-tracking platform. (SQL Server, EF Core, xUnit, N-layer architecture)

Tools

- Emoji list creator tool (<https://github.com/Elorucov/EmojiListCreatorTool>) — a .NET console app for generating emojis list.
- Salary calc (<https://github.com/Elorucov/SalaryCalc>) — a tool to calculate salary.
- Widget Shot (<https://apps.microsoft.com/detail/9nr39qhpqr8w>) — A tool for checking Windows 11 widgets and taking screenshots of them.

Web

- Personal site (<https://elor.top>).
- Laney's landing page (<https://elor.top/laney>)
- VK widget builder (<https://github.com/Elorucov/VK-Marusia-Widget-Builder>) — web-app using React framework.
- PHP: subdomain checker (<https://elor.top/internal/sdcheck>), as well as custom-made websites.
